REMARKS

Applicants thank the Patent Office for the careful attention accorded this Application and respectfully requests consideration of the Amendment above and remarks set forth below.

In response to the Office Action dated June 28, 2005, Applicants have canceled claims 33-39 without prejudice or disclaimer, and amended Claims 27-31, 40-43 and 45 to correct errors of a typographical nature, to more clearly define over the prior art, and place these claims in condition for allowance.

Applicants reserve the right to file one or more continuation applications based on the canceled claims.

Applicants have also amended the Specification in order to ensure correspondence between the Specification and Formal Drawings.

Applicants also submit herewith one (1) sheet of Redmarked Drawing and one (1) sheet of Formal Drawing, to correct mislabeled Figs. 4E and 4F (mislabeled as Figs. 5A and 5B).

In view therefore, of the Amendment and Remarks set forth above, the present invention defined by allowed Claims 24-32 and 40-45 is firmly believed to be neither anticipated by, nor rendered obvious in view of the prior art of record, and that the present application is now in condition for allowance.

Favorable action is earnestly solicited.

The Commissioner is hereby authorized to charge as any fee deficiencies to Deposit Account No. 16-1340.

Respectfully submitted,

Dated: December 28, 2005
